Be part of a rescue crew sent to a mysterious planet known as H-99 to find out the fate of a previous crew that has suddenly stopped all communications. You will build several robots to explore and perform tasks on the planet, such as building a basecamp, monitoring a volcano, rescuing a lost vehicle, and more! This camp will introduce you to the fundamentals of robot building and programming using Lego Mindstorm Kits. This camp will allow you to apply mathematics, scientific ways of thinking, and current technologies to complete extensive challenges.
